Secure Coding CSE-2010

Lab Assignment-4

Name: G.GAYATHRI

Slot: L23+24

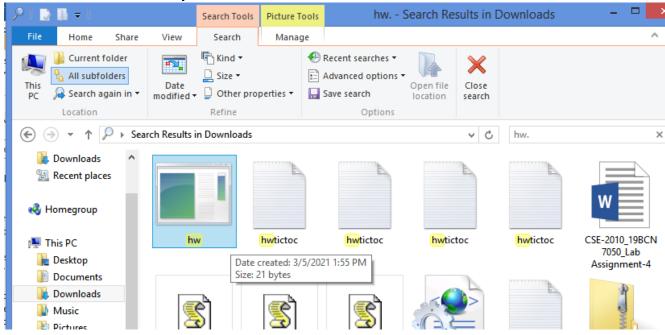

Reg.No: 19BCN7034

Mid-level

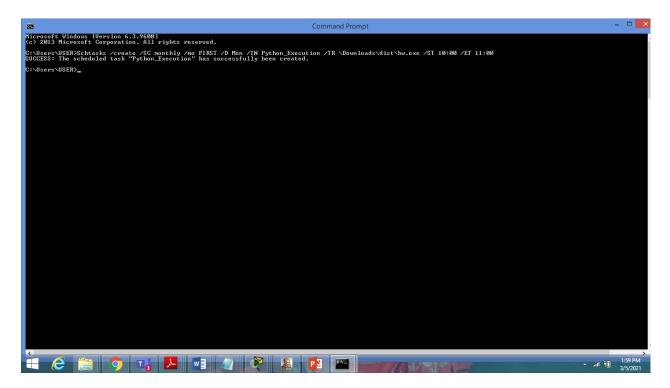

Write a python script to print hello world.
 hw.py code :

print ("Hello World")

• Convert the script into executable.

 Schedule a task named "Python execution" to run the above executable on first Monday of every month.

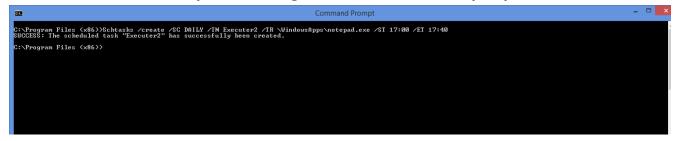

Intermediate

• Schedule a task named "Executer" on your machine to run calculator for every 5 minutes starting from a specified start time with no end.

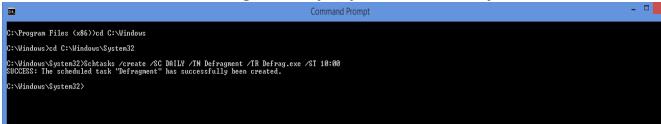

• Schedule a task named "Executer2" to run notepad starting at 5:00PM and automatically terminating at 5:40PM hours every day.

Advanced

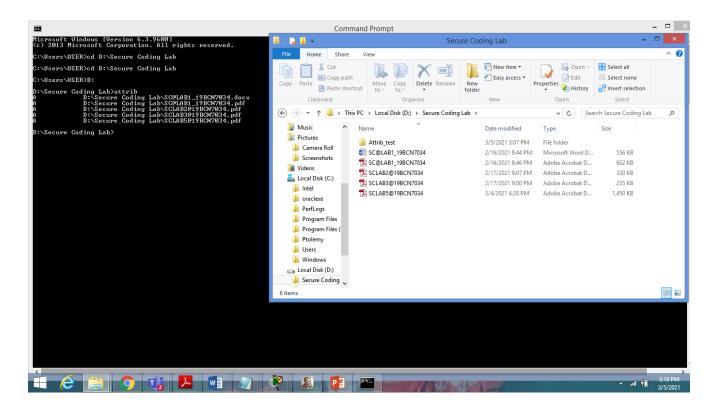

- Schedule a task named "Logger" to log your internet explorer activity to a separate text file.
- Schedule a task to defragment any of you local disk daily at 10AM.

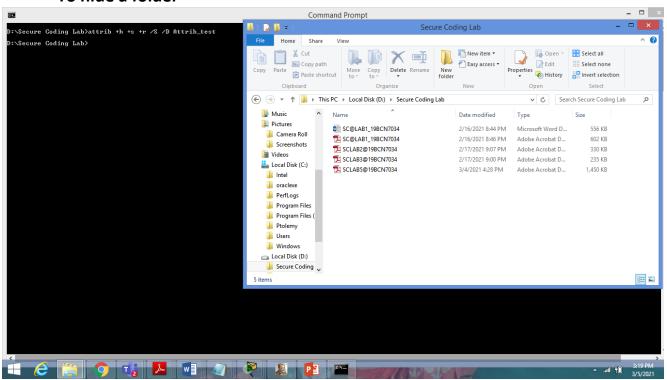

Attrib Commands:

- +r = This assigns the read-only file attribute to the file or directory.
- -r = This removes the read-only attribute.
- +s = This assigns the system file attribute to the file or directory.
- -s = This removes the system attribute.
- +h = This assigns the hidden file attribute to the file or directory.
- -h = This removes the hidden attribute.
- +c = This assigns the compressed file attribute to the file or directory.
- -c = This removes the compressed attribute.

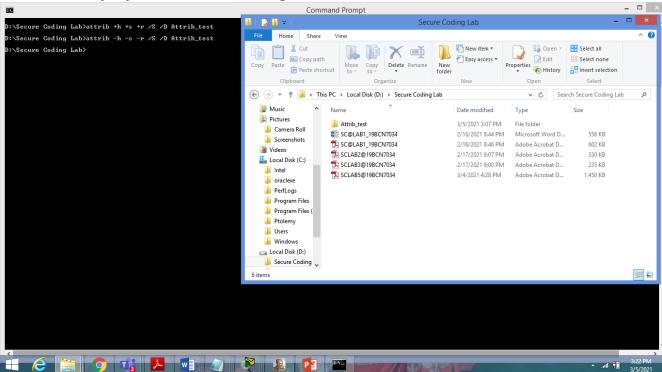

19bcn7034

• To hide a folder

• To display the above folder again

Powercfg

powercfg /Energy

```
